In Canada, and in most parts of the world, the number of graphic designers and illustrators is expected to increase sharply over the next few years.

The Graphic Design training at LaSalle College offers students professional level facilities, qualified teachers whom currently work in the industry and a hands-on education helping the students master the necessary skills needed to succeed as a graphic designer.

Graduates from our Graphic Design course often find jobs with internationally acclaimed companies such as Moment Factory, Sid Lee, ALDO, just to name a few.

Each session, LaSalle College organizes an exhibition to highlight the projects of its students. Come join us at our next exhibition!

This program is offered at the Montréal and Laval campuses.
